

## Directions:

Ammos hotel is located 4 km west of the centre of Chania (towards the city of Kissamos a.k.a Kasteli). From the centre of Chania you take the old national road to go to Agii Apostoli and Glaros beach – this road passes in front of the municipal market. It is a busy road and most of the cars will drive in the same direction as you - going west.

At a 2 km distance from the centre you will pass a “Cyclon” petrol station. After approximately 3 km from “Cyclon”, you see a big Renault car dealership on your right hand side. After another 200 meters you will see a travel agency called “Zeus” on your left hand side and 50 meters on you will see a hotel called “Yakinthos” on your right hand side. You turn right (towards the beach) down a narrow road between a corner mini market “Τα 3 Αδέρφια” and the hotel “Yakinthos” and there we are!

Alternatively, if you come from the new national road (from Heraklion or Rethymno) and you don't want to come through the centre of Chania, you go past the first exit (Chania-Souda), continue past the second exit (Chania-Mournies-General Hospital) and take a right turn at the third exit (Chania-Omalos). Then, take the first right (following the sign marked for “Chania 4km”), you drive straight and at the end of that road (first time you see traffic lights), you turn left (while you turn you see the petrol station “Cyclon” in the corner). From that point on ammos hotel is approximately 3 km away and you must find the Renault car dealership and all the other signs described before.
